

# Morris Eight Paint Colours

These are modern colour codes that most closely match original Morris pre-war colours:

Morris Light Brown = BLMC Luscious Brown, Berger ref 3527, ICI 7148, PJP 6170x4530.

Morris Dark Brown = BLMC Fawn Brown, Berger 3549, ICI 4860, PJP 6170x4620.

Morris Dark Blue = Chrysler Biarritz Blue, Berger 0636, ICI 2831, PJP 6170x1510.

Morris Green = Fiat Country Green, Berger 4312, ICI 6860, PJP 170z2530.

Morris Red = Austin Damask Red, Berger 1244, ICI 4808, PJP 6170x5110 or Peugeot Amaranth Red, Berger 3957, ICI 7806, PJP 6177w5110.

Morris Dash Colour (Dark Purple not Black) = Fiat Amaranth, Berger 3597, ICI 7540, PJP 6170y5490.

It's also unlikely (not impossible) your Morris was originally all black; nearly all were a "colour" on black. The post war 8 Series E were only available all black, and may pre-war cars got this treatment later in their life to make them look more modern! The colour of the interior (if original) will be a giveaway to the original colour as it will match the exterior colour. The post war "black" SE's all had brown interiors.

Two colour's on the 8's do look good, whether it's was original or not, I think you are doing the right thing
